JOINTLY ACCREDITED PROVIDER<sup>™</sup>  
INTERPROFESSIONAL CONTINUING EDUCATION

In support of improving patient care, this activity has been planned and implemented by AKH Inc., Advancing Knowledge in Healthcare and The New York Cardiological Society. AKH Inc., Advancing Knowledge in Healthcare is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), the American Nurses Credentialing Center (ANCC), American Association of Nurse Practitioners (AANP), and the American Academy of Physician Assistants (AAPA) to provide continuing education for the healthcare team.

**Physician Associate**  
AKH Inc., Advancing Knowledge in Healthcare has been authorized by the American Academy of Physician Associates (AAPA) to award AAPA Category 1 CME credit for activities planned in accordance

with AAPA CME Criteria. This activity is designated for 5.00 AAPA Category 1 CME credits. PAs should only claim credit commensurate with the extent of their participation.

**Physicians**  
AKH Inc., Advancing Knowledge in Healthcare designates this live activity for a maximum of 5.00 AMA PRA Category 1 Credit(s)<sup>™</sup>. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**Nurses**  
Credit being awarded: 5.00 ANCC contact hours

**Pharmacists**  
AKH Inc., Advancing Knowledge in Healthcare designates this continuing education activity for 5.00 contact hours.

**Nurse Practitioners**  
This activity has been planned and implemented in accordance with the Accreditation Standards of the American Association of Nurse Practitioners (AANP) through the joint providership of AKH Inc., Advancing Knowledge in Healthcare and The New York Cardiological Society and AKH Inc., Advancing Knowledge in Healthcare is accredited by the American Association of Nurse Practitioners as an approved provider of nurse practitioner continuing education. Provider number: 030803.

**Special thank you to Zoll for their support of the heart dissection.**

### NYCS DISCLOSURE STATEMENT

The New York Cardiological Society, Inc. relies upon invited faculty participants in its CME programs to provide educational information that is objective and free of bias. In this spirit, and in accordance with the guidelines of the program sponsor, faculty participants are expected to indicate any commercial relationship of interest.

### PROGRAM DESCRIPTION AND TARGET AUDIENCE:

Heart disease and cardiovascular-related illness remains a leading cause of death in the United States. The New York Cardiological Society (NYCS) continues its tradition of providing timely guidance and education to the cardiology community through its annual symposium. As the field evolves, new therapies, devices, and care models offer expanded opportunities to improve outcomes.

The purpose of the 17th Annual CVT Symposium is to update the cardiovascular team (CVT) with emerging evidence and provide practical insights in heart failure management, electrophysiology innovations, and strategies for team-based care and professional growth.

### LEARNING OBJECTIVES:

At the conclusion of this activity, attendees will be able to:

- Identify the anatomical location of the heart's conduction system
- Explain atrial and ventricular structures and common sources of arrhythmias and congenital abnormalities
- Cite the cardiac valves and leaflets and their relative location in the heart
- Describe triggers for referring patients to advanced heart failure
- Identify pros and cons of LVAD and heart transplant in different patient populations
- Compare the effectiveness of Mobile Integrated Health (MIH) versus a Transitions of Care Coordinator (TOCC) program in improving patient-reported health status and reducing 30-day hospital readmissions after heart failure hospitalization
- Interpret subgroup findings regarding treatment heterogeneity by age and sex in MIH interventions and their implications for personalized care planning
- Identify key implementation barriers and facilitators to Mobile Integrated Health (MIH) delivery using the RE-AIM framework, with a focus on sustainability in urban healthcare settings
- Identify the various types of cardiac devices available within the field of electrophysiology
- Describe the advantages and limitations with the various types of devices in electrophysiology
- Cite new technological advances in cardiac devices that are being explored and what benefits they can have for solving existing issues within the field of electrophysiology
- Describe key skills that are most applicable in career growth and successful leadership advancement.
- Identify pathways for both institutional and extramural professional development
- Generate individual visions, missions, and values to enhance professional growth in a healthcare career
